

# Testing for HIV – as part of an NHS Health Check in City & Hackney

From October 2023, everyone who has their blood tested as part of an NHS Health Check (ages 40-74) will be tested for HIV.

It is important to get diagnosed early as treatment is life-saving and free from the NHS.

Your results are confidential. If you do not want to be tested, please let a member of staff know.

If you do not need a blood test as part of your NHS Health Check, but do want to be tested for HIV, please let a member of staff know.
